How to Decorate a Windsor Planter

Shop at your local craft store in the woodworking section where you will find a selection of many styles of decorative wood appliques that are adhesive backed and ready to mount on most surfaces. No need to apply additional adhesive. Select one that will fit in the larger recessed panel of the Windsor (be sure to take the measurements of the panel to the store).

Paint the decorative appliques to match your house trim or as an accent before you attach to the Windsor. Use any exterior latex or oil based paint or stain and apply several coats.

Remove paper backing and place several appliques on the Windsor panel. Step back and view. Reposition as necessary using gentle pressure. When satisfied with position, apply firm hand pressure for permanent adhesion.

Project Time: Under 2 Hours to Decorate
Material Cost: Approx: \$15 for
Appliques and Paint
